

Veeco TURRIS – new mobility scooter on offer

Did you think that the launch of **electric-powered wheelchairs** was the only thing to surprise you at the beginning of this year? If so, we are forced to admit that you were wrong. As you know, we never rest on our laurels, so we are pleased to announce that **we are expanding our range of electric mobility scooters. Meet TURRIS** – mobility scooter that is a little brother of our bestseller GRAVIS.

Get ready for Veeco TURRIS – the innovative 3-wheeled mobility scooter

A large group of mobility scooter models in our offer will soon be joined by **TURRIS – Veeco 3-wheeled electric mobility scooter**. If you are looking for a reliable and secure mobility scooter, TURRIS will be an excellent option for you. This trike was designed to provide its user with comfortable, safe and efficient riding experience, thanks to its 3 wheels and 2 additional **small stabilizing wheels**. With TURRIS you can enjoy your outdoor trips without any worries.

Costs savings with TURRIS and all Veeco vehicles as well

Veeco TURRIS boasts impressive savings, thanks to its lead-acid gel battery. This allows for a single charge to last for up to 35 miles (50 km), saving up to £2000 on fuel costs. In fact, you only need to spend £1 for every 100 miles driven, making it a cost-effective alternative to other transport options.

Safety features of TURRIS mobility scooter

Safety is a TOP priority with TURRIS mobility scooter. With both – front and rear suspension, users can experience a stable and smooth ride. It also includes hazard lights, a parking brake and a reverse gear, ensuring safe and secure operation at all times. The newest mobility scooter model TURRIS also features an **easy-to-read dashboard**, with a unique black display and bright green and red indicators. The **full LED lights** make not only the road but also the vehicle itself visible to other road users. It also makes it easy to navigate during nighttime. Comprehensive lighting also including:

- turn signals,
- low beam lights,
- high beam,
- brake lights and
- emergency lights, giving riders full visibility in the dark.

A few words about design and comfort

TURRIS has an extremely comfortable seat with full backrest and movable armrests. With TURRIS you can enjoy the freedom of the outdoors, with a sense of security and stability that can't be beat. It is the most advanced and **innovative 3-wheeled mobility scooter** of our time, providing a reliable and cost-effective solution for those looking for the best mobility support. What's more, with roomy

storage, including a lockable space under the seat and a separate shopping trunk at the back, you can take all your stuff with you on your journey.

Veledo TURRIS – trike with roof and windscreen

Veledo TURRIS is the only trike available with roof and windscreen. This capacity is the answer for needs of those who were waiting for such an option since our DRACO model was launched. You may go for a ride at any weather conditions – **while it drizzles or on a sunny day** – enjoying TURRIS with canopy.

Where will TURRIS be available?

Soon you will be able to purchase Veledo TURRIS at our official distributors' online shops. Some of them have already launched this new vehicle in their offers. Find the mobility scooter near you and stay tuned with your dealer information. Follow our social media to be up-to date with Veledo news and premiers. And be sure of one more thing – **Veledo TURRIS is closer than you think!**
